

Raoul Bader
Product Research and Development
CTO and CEO AT CYBEX GMBH

Born in 1962 in Molsheim, France, and father of four children. After completing vocational training as a confectioner and chef, Raoul Bader moved to the University of Ulm. In 1996, he earned his doctorate in physics, managed several more extensive projects at the University in Ulm and at the Institute for Microtechnology in Mainz, and then found his place in research and development at Braun GmbH.

In 2006, he left Gillette Company Braun as Associate Director and main responsible for innovation management, special projects and product maintenance. Within the Group, in addition to the above-mentioned areas, he was responsible for the restructuring and realignment of the research and development department.

At Leifheit, Dr. Bader started in 2007 in the role of Division Manager Product Innovation and was responsible for Process Management, IT, Quality Management and Application Technology when he left.

Since 2011, Dr. Bader has been responsible for all technical developments within CYBEX GmbH, since 2015 as CTO and Managing Director.

About CYBEX

For CYBEX, safety, innovation and lifestyle are paramount. The German brand develops products that make everyday living for parents and children safer and more comfortable. All products follow the CYBEX D.S.F. innovation principle, the unique combination of distinctive design, highest safety standards and smart functionality – “for all tomorrow’s people”.
